Brexit	<p style="text-align: center;"></p> <p>Risk score has increased to 16 in quarter 2 as the rhetoric from UK Government and EU is that there are gaps in the trade negotiations and there is an increased probability of the UK leaving without a deal in place. Further examination of this risk will need to be undertaken pending the outcomes of the final negotiations. For the Council, it is increasingly difficult to effectively prepare until the final outcomes are known and the Council's Brexit Task and Finish group is monitoring this process closely with monthly reports to the Council's Cabinet.</p>

While this would not be a significant issue for the Council to deal with due to reserves it has set aside.
