Background

As part of the programme of regulatory activity in accordance with the Well-being of Future Generations (Wales) Act 2015, Audit Wales undertakes a programme of work to ensure the Council is fulfilling its duties under the Act. Purpose of the report is to demonstrate the work carried out by Newport City Council since the last Annual Audit Summary issued in March 2021.

Report Overview

To meet the Auditor General's duties, Audit Wales assesses the Councils financial statements and determines whether arrangements have been put into place to secure value for money. Audit Wales findings and conclusions are summarised below:

Audit of Newport City Councils 2020-21 statement of Accounts:

- The Auditor General gave an unqualified true and fair opinion on the Council's financial statements on 16th November 2021.
- The Council's Annual Governance Statement and Narrative Report were prepared in line with the CIPFA Code and relevant guidance. They were also consistent to the financial statements prepared by the Council.
- The quality of the draft statements presented for audit on 6th July 2021 was mainly good.
- Several changes were made to the Council's financial statements arising from the audit work, which were reported to the Governance and Audit Committee (GAC) in the Audit of Financial Statements Report in November 2021.
- In addition to the Auditor General's responsibilities for auditing the Council's financial statements, there is also a responsibility for the certification of several grant claims and returns. Work is still ongoing, and Audit Wales will report the outcome of this work in greater detail to the GAC once completed.
- The Auditor General issued the certificate confirming the audit of accounts for 2020-21 has been completed.

Continuous improvement:

- The Auditor General certified that the Council had met its remaining Local Government (Wales) Measure 2009 duties for the financial year 2020-21, as saved by an order made under the Local Government and Elections (Wales) Act 2021.
- Audit Wales noted a reduced reference to comparative performance information, although recognising that the COVID-19 pandemic led to the suspension of some national data collection.
- The ability to compare data and performance with other organisations will continue to be an important aspect of arrangements to secure value for money, and a challenge for councils as they continue to implement requirements relating to self-assessment as required in the Local Government and Elections (Wales) Act 2021.

Financial Sustainability

- Audit Wales concluded Newport City Council has a good understanding of its financial position.
- Newport City Council recognises the need to transform its service delivery for future sustainability, however further work is required to design and implement these changes.

Discretionary Services (April 2021)

- Financial pressures have led Councils to reduce spending and cutting services, however the pandemic has demonstrated local government services are essential to keeping the public safe.
- Audit Wales recognised the demand for some essential services is continuing to increase, and several Councils are not confident that they can effectively deliver these services in the face of rising and complex demand.
- Audit Wales recommends that Councils need to take the opportunity to refresh, reevaluate and reset what they do and learn from the pandemic, to build a stronger and better future.

Planned work for 21-22

Audit Wales reviewed the key challenges and opportunities that faced the Council. These could impact on the Council's ability to meet its legal as regards to the sustainable development principle and the use of its resources. The largest risk and issue facing the Council and the wider public sector during 2021-22 is COVID-19. Audit Wales have shaped their work to provide re-assurance and support the Council through this period. The planned work for 2021-22 includes:

Assurance and risk assessment including a focus on:

- The Local Government and Elections Act (Wales) 2021
- Recovery planning
- Carbon reduction plans
- Self-assessment arrangement
- Financial position

Comments of Chief Financial Officer

There are no direct financial implications arising from this report, which takes a retrospective view of work completed by Audit Wales over the last year. The report is for information only and captures viewpoints and information that will have largely been reported previously, for example the audit of the 2020/21 Statement of Accounts. It is positive that the report acknowledges the Council's sound understanding of its financial position and resilience, as well as the good quality of the draft statements that were presented for audit in July 2021.

Comments of Monitoring Officer

There are no specific legal issues arising from the report, which presents the Annual Audit Summary of the Council audit work completed by Audit Wales in 2020/21. The Annual summary includes all of the statutory audit work carried out during the last completed financial year, including the audit of accounts, and their assessments of how the Council is meeting its duties to secure value for money, continuous improvement and sustainable development in accordance with the Well-being of Future Generations Act 2015. The report is being presented to Governance & Audit Committee for information, given its role in overseeing the Council's external audit arrangements and its systems of internal control, financial management and corporate governance.

Comments of Head of People, Policy & Transformation

Newport Council welcomes this report from Audit Wales and its assessment on the effectiveness of governance, finance, and performance arrangements in the Council. The work undertaken by Audit Wales provides necessary assurances and areas for improvement by the Council to implement. The challenges and opportunities faced by the Council will be considered as part of the development work for the Council's Corporate Plan and future risk assessments. There are no HR implications in this report.
