## Introduction

Newport City Council's Corporate Plan 2022-27 has four Well-being Objectives to support its mission **'To be Confirmed'** and contribute towards Wales' Well-being Goals set in the Well-being of Future Generations Act. To support the delivery of these objectives and strategic priorities, each service area has developed their service plan. The Finance Service Plan 2022-24 outlines its own priorities and how the service will contribute towards the Corporate Plan and deliver continuous improvement.

Since the Senior Management Structure implemented in Autumn 2021, the Finance service comprises of six teams: Accountancy; Internal Audit; Procurement/e-payments; Revenues, Benefits and Customer Services. Together, the teams provide a diverse mix of services and activities that support the Council's service areas; setting overall policy frameworks for the whole Council; and Revenues, as one of the biggest external customer departments dealing with all households and businesses and Customer Services dealing with the Council's external service requests, both face to face and phone./digital transactions. Examples of the areas / functions include:

- Setting policy, good practice, training, support and co-ordination to enable effective financial management and strategic planning of a net revenue budget of c£340m, supporting over 200 budget manager's/service managers, Head teachers and Members;
- Supporting the organisation develop its services and deliver key projects with financial advice and support as needed;
- Providing assurance to the Council and Schools on the effectiveness and efficiency of its governance, risk management and internal control of its financial and non-financial resources including where necessary the investigation of impropriety / theft;
- Collect c£120m of income from Council Tax, Business Rates and various sundry debts.
- Manage and support the Council's interaction with its suppliers to ensure value for money through e-ordering, payments and support services in tendering / awarding / managing contracts.
- Supporting the Head of Finance in carrying out his statutory Section 151 responsibilities.

Through the Corporate Plan and beyond, the Finance Services will continue to build on delivering more 'self-service' functions, both internally such as the Council's Budget Management System and externally through the development of the Council's Customer Relationship System and *My Account* enabling residents and businesses to engage with the Council electronically in more areas and design and build solutions with services to deal with these efficiently and effectively. Specifically within Revenues and Benefits, we will roll out 'self-service' in Council Tax and Benefits administration, as part of the *My Account* offer. Ensuring the Council's resources are focussed on its key priorities is increasingly important and our Finance Business Partners will support and develop strong, integrated financial planning, management and governance. The Internal Audit team is already collaborating with Monmouthshire Council through the sharing of the Chief Internal Auditor and continue to provide high level assurance service to the Council on the financial and non-financial governance, risk management and internal control.

Supporting the Council and City through the Covid Pandemic throughout the previous two years or so has dominated our agenda and our work on supporting businesses and households and individuals is still on-going, either Covid or increasingly, cost of living related - business rates reductions scheme, winter fuel payments, WG & NCC cost of living support scheme for example.

As we write this, the financial outlook for public services is increasingly challenging and uncertain and also, the Council has a new Corporate Plan. We will aim to support and where applicable, deliver on key deliverables and objectives in the Plan as well as support the organisation in navigating through the financial

challenges. Specifically, as we do this, we will need to work in the Council's 'new normal' arrangements and ensure staff are working in the most effective, efficient and safe manner.

## **Finance Objectives**

To support the delivery of the Corporate Plan, meet our statutory duties and improve the services we deliver, we will be delivering four objectives:

**Objective 1** - Support the medium to long term financial management & planning (Revenue and Capital) across the Council to focus resources on key objectives and help financial sustainability of Council services.

**Objective 2** - Develop a range of customer focused services via re-opening of face-to-face services and development of the 'Newport App' and 'My Council Services' systems.

**Objective 3** - Embed social value, carbon reduction and Welsh TOMs into the Council's procurement processes.

**Objective 4** - Revenues and Benefits team and Income Collection team support households and businesses through the Cost-of-Living crisis.

## **Transformation Plan / Service Area Projects**

To support the successful delivery of the Council's Corporate Plan, NCC will have a Transformation Plan that will deliver the strategic programmes and projects that will contribute towards the delivery of the Corporate Plan. Service areas will also be delivering smaller scale projects that will contribute towards continuous improvement in the delivery of services as well as contributing towards the strategic priorities of the Council's Corporate Plan.
