Introduction

Newport City Council's Corporate Plan 2022-27 has four Well-being Objectives to support its mission to deliver **an Ambitious, Fairer, Greener Newport for everyone** and contribute towards Wales' Well-being Goals set in the Well-being of Future Generations Act. To support the delivery of these objectives and strategic priorities, each service area has developed their service plan. The People, Policy & Transformation Service Plan 2022-24 outlines its own priorities and how the service will contribute towards the Corporate Plan and deliver continuous improvement.

The People, Policy & Transformation (PPT) Service Area is part of the Council's Transformation & Corporate Directorate. The service area plays a critical role enabling the Council to develop, promote and deliver its strategic priorities; enable its staff to deliver its services across Newport, and transform its services to meet the needs of its residents, service users and staff. PPT is responsible for key corporate services such as Human Resources & Organisational Development, including health & safety, Policy & Partnership, Digital Services, Assets, Communications and the Transformation & Intelligence team.

PPT's goal is to progress the strong work completed in the last five years for Newport Council to be an inclusive organisation which represents the people of Newport, enables communities to be involved in the decisions we make and to ensure fair and equitable access to our services (digital and in-person). This Plan also supports the wider work of Newport Council with its Gwent Public Services Board (PSB) partners across the region and in Newport through the delivery of the Gwent Well-being Plan. Additionally, we will also be supporting and delivering other partnership work throughout Newport working with communities and other stakeholders through its Safer Newport, Welsh Language and Equalities work.

As the Council emerges from the pandemic and is now faced with the cost-of-living crisis, we will build upon the innovative and transformational work utilising our digital services and technology that will enable residents, businesses and other stakeholders to access the services when they need it. We will also support the organisation's staff to have the capability and capacity to work more flexibly across Newport and to use our buildings and assets more efficiently contributing towards carbon reduction and delivery of the Climate Change Plan.

People, Policy & Transformation Objectives

Objective 1 - Enabling evidence based organisational transformation to improve the delivery and sustainability of service delivery to the communities of Newport.

Objective 2 - To have an inclusive organisation that supports and encourages its workforce's development, health and well-being and enables improved services delivered to the citizens of Newport.

Objective 3 - Newport City Council fosters a culture of collaborative working with partners (local and regional) which empowers communities and service users to improve the well-being and long-term sustainability of the city.

Objective 4 - Effective and sustainable management of assets and properties and support for the Council's goal of becoming a net carbon zero by 2030.

Head of Service Executive Summary

The service continues to play an essential role in enabling the Council to meet its corporate objectives and supporting all service areas in delivering key outcomes. Since last year the responsibilities of the service area have changed with the addition of assets and customer complaints which are reported below. Civil contingencies and community cohesion have moved to other service areas. Although the COVID pandemic has had some impact on performance and significantly changed the work of the service in 21/22, 22/23 has been a year of recovery and our new objectives reflect that.

The service leads on corporate and service planning including all risk and performance management and a range of statutory reports have been completed as part of this work, alongside regular Cabinet and Committee reports. The service led on the development of the [Corporate Plan 2022-27](#) and other supporting work such as the Digital Strategy (LINK – *pending translated design copy*) The next development will be the new People Plan.

The Digital and Intelligence services have continued to support the development of new ways of working through new technologies and IT support, data matching and intelligence. As we move into the new year we are working to a new approach to transformational change bringing those teams together to support an evidence led approach.

The management and development of effective IT services through our partnership with the Shared Resource Service (SRS) remains a priority, with client-side arrangements and monitoring to support this. We work closely with partners in the SRS to support the use of digital technology across all services, and the provision robust infrastructure. Our work this year to move our data centre into the cloud as a more resilient, cost effective and sustainable model is a good example of this. In the coming year we will develop our use of hybrid working creating efficiencies with a change to telephony provision, and the web site project will also be a key deliverable with a new launch date in 23/24. The digital team also leads on information management as outlined in the Annual Information Risk Report. Services include statutory responsibilities such as responses to Freedom of Information requests, managing customer complaints and the provision of mail and print services.

The equalities and policy and partnership team works with partners and communities across Newport and this is reflected also in our engagement work, particularly the success of the participatory budgeting programme over the last two years. We continue to support Newport Youth Council and engagement on various aspects of service provision. We will need to ensure we maintain the momentum in our strategic equalities and Welsh language work in the coming year, and this will be evident in both annual reports. In the coming year we also need to develop the Strategic Equalities Plan from 2024.

Strategic communications continue to evolve with the resident's newsletter, increased use of social media and ongoing website development project which started last year. This project has been subject to delays through technology, business need and skill changes and has restarted in Q1 23/24.

As part of the move of assets into the service area and development of the transformation programme, we are also developing our asset rationalisation programme to reduce the buildings and land in use by the Council, and use more effectively those that remain. We act as client to the Council's property services partner, and will also be reviewing these arrangements in 23/24.

The HR team provides support to managers across the Council on a range of human resources issues, including payroll services, advice and support and employee relations through our Employee Partnership Forum. Working with equalities and climate change teams we also have a range of staff groups, and for 23/24 are redeveloping employee engagement arrangements. The team also provides employee development, health and safety and wellbeing services supporting compliance with professional advice on keeping our workforce safe. In 23/34 we will be working with managers across all services on the sickness and management check in targets to understand how these can be improved and review policies where appropriate.

The service also supports the One Newport, Safer Newport and Gwent Public Services Board (PSB) partnerships working with partners across the city and region on a range of well-being work. In the last year the first Regional Well-Being Plan was signed off, with a change to monitoring arrangements locally and regionally to support this.

Performance Measures

Performance Measure / Description	Reporting Frequency (Quarterly / Half-yearly / Annual)	Actual 2020/21	Actual 2021/22	Actual 2022/23	Target 2022/23	Commentary
NCC Sickness Days Lost.	Quarterly	8.95 days	10.06 days	14.13 days	10.06 days	19/20 & 20/21 reported a change in previous variations on sickness data due to the pandemic, and therefore the last few years within and coming out of the pandemic, normal absence rates reduced, although COVID absence, which was not part of the reporting at that time, is now included in this figure. April 22 also saw the Council approve its Wellness at Work approach, which adopted a more mature approach to managing absence. It is also widely reported that absence across sectors has increased as we emerge from the pandemic, into other crises such as cost of living. Work is required to understand Council absence and further engagement work is required in the still embedding wellness approach and this has started in 23/24.
Percentage of managers undertaking regular check-ins	Monthly	No Data	23.9%	37.91%	80%	Following changes in practice during the COVID pandemic we are relaunching our check-in process and ensuring these are recorded. As outlined above, considerable activity has taken place in Q3/Q4 to assess and redress this measure. Managers tell us that they do regularly hold conversations with their team members and recording it may not always be at the forefront. Work is continuing to develop this measure in 2023/24 to ensure we continue to improve and record. To demonstrate this, quarter 4 data (Dec-Mar) since the changes, is 50.52%, representing improvement.
(New) % of staff that are able to speak Welsh at least intermediate or above level.	Half Yearly	No Data	No Data	8.1%	20% (to be amended to 7.5% 23/24)	This performance measure is reliant upon staff members self-assessing their Welsh language skills within their Employee Self-Service account and therefore may not be accurate. The Policy and Partnership team are working with HR colleagues to remind all staff to complete this section in their accounts and a report will be provided to at service area level to ask managers to encourage their teams to complete the self-assessment.

Performance Measure / Description	Reporting Frequency (Quarterly / Half-yearly / Annual)	Actual 2020/21	Actual 2021/22	Actual 2022/23	Target 2022/23	Commentary
(New) % of staff that are able to speak Welsh at least intermediate or above level.	Half Yearly	No Data	No Data	8.1%	20%	In addition, we are working with partners on a programme of Welsh Language training aimed at improving Welsh Language skills across our officers and in increasing confidence for people to use Welsh in the workplace. The target will be reviewed for 23/24 to reflect the language skills of our population, ensuring we continue to develop but reflecting our recruitment challenges. 7.5% is the percentage of people in Newport who said they could speak Welsh in the 2021 census.
(New) Percentage of complaints to the PSOW intervention	Quarterly	11%	11%	17.0%	Less than 14%	This is a new measure which has missed the target for the full year, although following changes to processes and policy has improved and was within target for Quarter 4. The overall number of upheld complaints is 8. Complaints transferred to this service area at the start of the year and positive changes made during autumn 2022, including the newly revised complaints policy and improved processes, are anticipated to result in improved future performance. In addition, there is a lag in the figures as they are based on when complaints referred to the Public Services Ombudsman for Wales (PSOW) are closed not when received.
Number of Apprentices per 1,000 employees	Annually	29 per 1,000 employees	20 per 1,000 employees	17 per 1,000 employees	20 per 1,000 employees	As budget pressures continue across the Council the ability to convert roles into apprentices or support workplace apprenticeships becomes more challenging.
Percentage of Subject Access Requests responses completed in time	Quarterly	60%	71.1%	71%	75%	Numbers of SARs have increased again this year. The fourth quarter performance was the best of the year despite the largest number of requests received. This remains a challenging target due to the scale of some requests, especially in social care. To date the council has not requested any time extensions for complex requests. However, these will now be used in line with the Information Commissioner's Office (ICO) advice. This will provide a more accurate and comparative reflection of performance and should result in an improved position. Access to paper records that was previously a challenge during the pandemic is no longer an issue.

Performance Measure / Description	Reporting Frequency (Quarterly / Half-yearly / Annual)	Actual 2020/21	Actual 2021/22	Actual 2022/23	Target 2022/23	Commentary
Number of staff undertaken Equality, Diversity, and Inclusion training.	Quarterly	7	168	339	240	High levels of engagement in equality and inclusion training during the year at all levels. It was especially encouraging to see the enthusiasm for elected members and staff members for the anti-racism training in quarter 4. Plans for 2023-24 include building on the awareness raising training and adding more specific equality and inclusion related subjects. Updated FEIA to be launched in quarter 1 of 2023-24 alongside associated training to aid awareness and understanding.
(New) Number of Council staff completing Welsh language training.	Half Yearly	No Data	No Data	194	180	Engagement with Welsh Language training has been encouraging this year and has been supported by the new Welsh Language Policy Officer. Discussions with a 3 rd party are continuing with plans to extend the offer of training in different ways to encourage further uptake in 2023-24.
Percentage Freedom of information Responses completed on time.	Quarterly	90.8%	89.5%	91%	88%	Work with the new service areas has been completed this year to ensure the target continues to be met.
Total number of social media followers	Quarterly	37,223	41,700	45,688	45,000	Engagement increased during this year with a focus on quality and frequency of posting.
