

Children & Young People Services

End of Year Review 2020/21

**Cabinet Member for Social Service –
Councillor Paul Cockeram
Head of Service – Sally Ann Jenkins**

Introduction

This is the Children & Young People Services update on the progress being made against the objectives, actions, performance and risk for the period 1st April 2020 to 31st March 2021. Service plans have been designed to support the delivery of the [Council's Corporate Plan 2017-22](#) and the [Council's Strategic Recovery Aims](#) in response to the Covid-19 crisis. As one of the 44 public bodies, Newport Council must consider the Well-being of Future Generations Act in the delivery of its plans and the sustainable development principle of meeting our duty under the Act.

Long term		The importance of balancing short-term needs with the need to safeguard the ability to also meet long-term needs.
Prevention		How acting to prevent problems occurring or getting worse, may help public bodies meet their objectives.
Integration		Considering how the public body's well-being objectives may impact upon each of the well-being goals, on their other objectives, or on the objectives of other public bodies.
Collaboration		Acting in collaboration with any other person (or different parts of the body itself) that could help the body to meet its well-being objectives.
Involvement		The importance of involving people with an interest in achieving the well-being goals, and ensuring that those people reflect the diversity of the area, which the body serves.

To support the delivery of the Council's Corporate Plan 2017-22 and the Strategic Recovery Aims, the Children & Young People's Service Plan 2020/21 focuses on the delivery of:

- **Wellbeing Objective 3** – To enable people to be healthy, independent and resilient; and
- **Strategic Recovery 3** – Promote and protect the health and wellbeing of people, safeguarding our most vulnerable and building strong, resilient communities.

The 2020/21 Service Plan has four objectives that are focused on:

Objective 1 – Deliver effective services to support children to safely remain with their families.

Prevention and early intervention are key drivers in the Social Services Wellbeing Act (SSWA). Working with families with a strengths based model is an integral part of working in partnership with families to achieve their goals and ensure they build the resilience to support their children safely and meet their aspirations without access to specialist services. Focussing on these services is key to ensuring children are safe and happy and is integral to the overall work of safely reducing our looked after children numbers.

Objective 2 – Improve outcomes for children in care and care leavers including a focus on safe reunification.

Children who become looked after and care leavers will have experienced significant early disadvantage and trauma. As children who are looked after they should benefit from corporate parenting which ensures they have access to good quality services to improve their life choices and ensure they are able to fulfil their potential. The key areas of home lives, education, health, leisure activities and transition to adulthood must be part of the corporate parenting agenda. As part of this objective supporting reunification where safe is an imperative. For care leavers Hidden Ambitions published by the Children's Commissioner will underpin the actions.

Objective 3 – Ensure a range of placements are available for looked after children.

Newport has a mix of in house residential services and externally commissioned services. Newport is in a very different position to most local authorities as it has 3 residential homes and 1 short breaks facility for children with disabilities. Even though Newport has in house residential resources and a good range of fostering placements there has been a need to also commission external residential and fostering provision. These placements are for a mix of children who have complex and challenging behaviours, risky behaviours and placements are children with significant disabilities. The dearth of placements has led to a very strong provider's market with generally poor outcomes for children.

This work under this objective seeks to expand the in house placement provision and improve the quality of the placement offer.

Objective 4 – Prevent offending and re-offending by children and young people.

The Youth Justice Service (YJS) is a partnership across a range of services within the Council and more widely with other agencies. The provision is laid out as key to preventing offending and re-offending by children and young people. The service offers a range of interventions and delivers against the requirements of the Youth Justice Board and the criminal justice system.

The service manager for YJS and the Head of Children's Services with the Local Management Board are responsible for the delivery of the plan.

Executive Summary from the Head of Service

20/21 has inevitably been dominated by the pandemic. Children's Services have continued to operate throughout providing safeguarding and support for the most vulnerable children, young people and families in Newport. Children's Services staff in all areas of service have sustained provision and responded positively to the challenges of working differently and the rapid shifts in guidance. Despite the changes and demands wrought by the pandemic Children's Services has continued to develop and ensure the best possible services are available across all areas of our work.

The pressure on families over the past year has been immense and that has been reflected in both the increasing numbers and the nature of referrals to Children's Services. Despite the increases the number of looked after children has remained stable and there has been no overall increase in the number of children on the child protection register. Social workers continued to visit throughout and all safeguarding work has been undertaken in line with statutory responsibilities. We have been able to sustain work in court with minimal interruption. The number of referrals and the complexity in referrals rose sharply as we came through March and into April 2021. The level of need being seen in families is stark and the impact on children and their carers in all aspects of their lives has been immense.

Children's homes and short breaks services have adapted to the changed circumstances and to providing direct care to children with heightened anxiety and with limited access to education. Foster carers have been supported throughout and for many they have found positive ways to enjoy quiet, quality time with children. A small set of children's artwork has been put together as has a collection of the views of foster carers. The recruitment and approval of carers has continued throughout the period of restrictions. We have successfully recruited an increased number of foster carers and reduced the number of children placed with Independent Fostering Agencies. A small number of children have been placed for adoption.

Despite all of the challenges many elements of innovative work has continued to grow for example family group conferencing, Baby and Me and a strong focus on children at risk of exploitation. We have developed a toolkit for children at risk of exploitation which is now being adopted across Gwent and shared throughout Wales. The report of the Joint Inspection into Child Protection Arrangements was published by the shared Inspectorates.

In the second half of the year we have been supporting the roll out of MYST (My Support Team) as a service to increase the support available to our children in placement particularly those children placed away from Newport. Rosedale children's home opened in March 2021 and work commenced on Windmill Farm. Staff in Pathway have developed increased services for unaccompanied asylum seeking children and are working to provide proactive services for children requiring placements. Staff across Children's Services are working to implement updated guidance within the family justice system.

This year has seen changes across the Performance Management Framework. These changes are still being implemented and have made target setting for the coming year challenging. It is likely that while these changes are still being worked through across agencies with accompanying guidance there will be changes in the target setting in the coming year.

Staff have embraced all forms of digital work and some elements of this continue. The majority of family court work is likely to continue to be via online platforms for the foreseeable future. Child Protection Conferences will be piloted as hybrid meetings from June 2021 and are likely to be adopted in this manner for the future. While staff have adapted incredibly well to needing to work from home a balance of being present in the office with the support of colleagues and managers.

As 20/21 came to an end staff were tired and inevitably events of the year will continue to reverberate throughout 2021 and indeed into 2022. While there is no end in easy sight to the current challenges Children's Services staff will continue to work positively and constructively to offer the best possible support to families.

Performance Measures 2020/2021

In 2020/21, the Welsh Government has introduced a new performance management framework for Children & Young People Services. As there is no previous data and benchmarking data to determine a target, no targets have been set for 2020/21. Baseline figures for 2020/21 will be used to support target setting for 21/22.

Note: Due to issues with WCCIS information system, Children Services have been unable to provide end of year data for some of the performance measures stated below in time of the Scrutiny review. These measures are marked as No Data. The Scrutiny Committee will be provided with the figures as soon as this data is available and have completed quality assurance checks
